BS Information Technology
Elite College (GCUF Affiliated)
2024 – 2028

LANGUAGES

English
Urdu

LAIBA SHEHZADI

MERN Stack Developer | Full Stack Web Developer

PROFILE

BS Information Technology student and MERN Stack Developer specializing in building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing responsive interfaces, REST APIs, and role-based authentication systems, alongside producing professional software documentation. Passionate about AI integration and continuous learning of modern web technologies.

EXPERIENCE

MERN Stack Developer — Freelance Learning

2024 – Present

- Developing full-stack MERN Stack projects, applying modern practices across front-end design and back-end architecture.
- Continuously learning and implementing new technologies, including AI integration into web applications.
- Preparing professional software documentation (SRS, Synopsis, UML, ERD, DFD) to support project planning and delivery.

FEATURED PROJECT

College Event Management System (EventMS)

Academic Project

Full-stack event management platform with secure authentication and role-based dashboards for Admin, Organizer, and Student users.

- Implemented JWT-based authentication and role-based access control for three distinct user roles.
- Designed an event approval workflow along with registration and user management systems.
- Built a fully responsive UI with React.js and Tailwind CSS, backed by a Node.js/Express.js REST API and MongoDB.

Tech Stack: React.js · Tailwind CSS · Node.js · Express.js · MongoDB · JWT Authentication
